GOSSELIN EXPORT PACKERS
BELGIUM - MEMBER GOSSELIN GROUP

Looking for maximum protection during shipping and storage?

Every move has those special items which require maximum protection during shipping and storage. Often sturdy wooden boxes are the practical answer. For over 25 years Gosselin Export Packers has manufactured plywood boxes and crates which meet the stringent needs of repeated moves to far away locations. Gosselin Export Packers manufactures a complete line of standard size and custom wooden boxes for export, moving, storage and industrial crating. With a dedicated fabrication plant and central warehouse at the Port of Antwerp, we quickly ship the boxes you need for any job.

Our plywood boxes

- ✓ Made of waterproof plywood of 9, 12 or 18mm (3/8", 1/2" or 3/4")
- ✓ A stable, tested construction
- ✓ Withstand rough handling
- ✓ A framework made out of heat treated wood
- ✓ In compliance with ISPM15 norm
- ✓ Assembled with nails
- ✓ Packed flat for convenient transport
- ✓ Standard and custom-made options available

All types of boxes

Type II Box: our main product

Our standard product is the Standard Type II box (205 cuft, 5,8 cbm) as specified by one of our main customers, the US Government, who use Type II and overflow boxes for moves throughout East and West Europe, the Mediterranean, the Middle East, the Caucasus & Central Asia.

Shipping

Most often boxes are shipped partially assembled as a flat pack for economical shipment (120 boxes per truck load, 50 boxes per 20ft container and 120 boxes per 40ft container), ready for easy assembly on site as needed.
