

Quality, Reliability, Flexibility

YOUR PREFERRED PARTNER
IN LASHING & SECURING

Heavy containers, large machinery, breakbulk cargo; all these and other commodities have to be lashed and secured prior to shipment to prevent movement and damage. Fastening these difficult items requires special tools, proper materials, and long experience to safely prepare them for transport. Pasec Port has more than 50 years of experience in securing breakbulk, reefer and general cargo for shipment by sea, rail, truck and air.

Pasec Port:

- ▶ Stands for **over 50 years experience in lashing & securing**
- ▶ Is the most prominent **independent cargo securing company** in the Port of Antwerp
- ▶ Is specialized in **project cargo, heavy lifts and cast iron pipes**
- ▶ Handles **all other commodities** such as steel, general cargo, ro-ro, containers
- ▶ Works **on board** of all types of vessels and **ashore** on railroad wagons, containers & trucks
- ▶ Operates a fully equipped workshop, enabling them to deliver tailor made wood products
- ▶ Performs maritime packing in warehouses, on terminals, chemical plants and at own premises
